2. Note continued as directed by the Asst Secy:

The appointment of Mr. R. Subba Rao as Laboratory Asst on Rs 80 per mensem temporarily was sanctd in G.O no. 11192-3 San 157-08 dd 11.5.09. The advertisement for a Graduate in Chemistry is perhaps intended to secure a Competent man to replace Mr. Subba Rao who, it is understood, will resume his Studies for the L. S. Sc. The appointment of Mr. Subba Rao as Laboratory Asst having been made under the peculiar circumstances of his case, it is a question whether there is real necessity for a permanent Laboratory Asst to the Chemical Examiner. Even if there is, it is a point for consideration whether local men cannot be trained for the work. Please See 1st Councillor's note dd 7.3.08 in San file 38-07 pgs 2,5,6 & 7/B. marchi 08.

to get a man for the salary offered (viz Rs 80) he recommends that as in British India, this new officer may be given an allowance equal to his pay and that he may be designated, "Asst Chemical Examiner."

Attention is respectfully invited to G. P. no. 9437/Sam 38-07-7 D. 19-3-08, wherein Govt desired that a local man with the requisite qualifications, may be selected for the laboratory Asst's post. Submitted for orders.

This paper comes from the Senior Surgeon and not from the Sanitary Com'r.

14.4.10 Secy. 15-4-10

If the appointment is graded with Subassts & asstt surgeons it will not be difficult to get a medical man who has passed the B.A. in Chemistry for the laboratory. Perhaps a small allce 20 a 25 Rs may be given in lieu of ~~medical~~ private practice.

The prospect of Indians in Mysore medical service seem to be much brighter than in Br. India & no useful comparisons can be made as regards the emoluments of particular appts alone

Sir,

With reference to your No.8709/Med.157-09-2, dated, 1st April 1910, I have the honor to reply that the Assistant Chemical Examiner, it is proposed to advertise for, is the same as that budgetted for under Public Health, 1909-1910.

2. It is impossible for Dr. M. Srinivasa Rao with his present staff to meet all the requisitions now made on his time, adequately, for analysis of various kinds. This difficulty will be accentuated when the Sanitary School opens. The designation of the new officer would be "Assistant Chemical Examiner". As Rs. 80/- has already been sanctioned as the pay for this officer I am anxious to try at once if one can be procured for such remuneration.

3. I fear, of course, that it will be impossible to get a man for the salary offerred. It is, of course, essential that the Assistant shall be a medical man as well asaChemist. Now in British India, when men already in the service - Assistant Surgeons - are transferred to laboratories they receive allowance as follows:-

The latter is admissible only after 15 years actual laboratory service.

4. I would recommend that this new officer be paid like men in the general service but get an allowance equal to the ordinary salary.
